

RingCentral for Google: Native Integrations

Seamlessly integrate your RingCentral communications and collaboration solution with Google Cloud to create a powerful business communications hub.

RingCentral's native G Suite integrations are built directly into Google's platform and are designed to streamline business communications and collaboration across the native Google applications you use every day.

Fax Google Docs instantaneously with the RingCentral Fax® plug-in; use RingCentral for Gmail to quickly access and message your contacts within the context of your email conversations; and seamlessly evolve your chat conversations into face-to-face video calls with RingCentral for Hangouts Chat.

Integrations

RingCentral Fax plug-in enables you to fax Google Docs instantaneously to any of your business contacts.

- Send to multiple fax recipients
- Customize the fax cover page

RingCentral for Gmail intuitively displays key information within your Gmail application, allowing you to access and message your contacts within the context of your email conversations.

- View presence of RingCentral contacts
- Review recent call history
- Make outbound phone calls
- View and send SMS messages

RingCentral for Hangouts Chat improves team collaboration by allowing you to seamlessly initiate RingCentral video and audio conferences from directly within your Google Hangouts Chat application. Simply type the following command prompts to access critical RingCentral functionalities.

- **@RingCentral meet:** Start a video conference with RingCentral Meetings™.
- **@RingCentral call:** Start an audio call with RingCentral Phone™.
- **@RingCentral help:** View all available command options.

Benefits

Seamless integration with Google applications

Connecting RingCentral with the business applications you use every day allows you to automate tedious tasks in your workflow for added efficiency and ease of use.

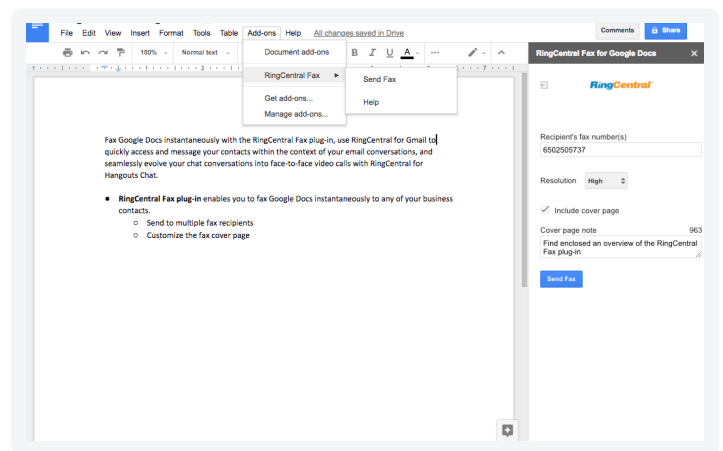

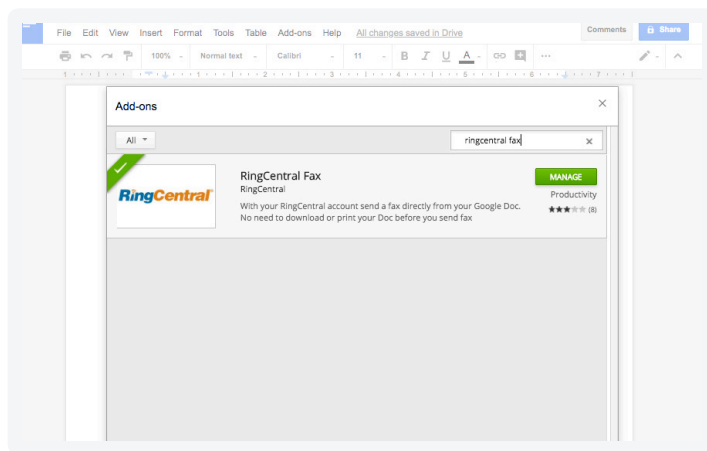

Productive team collaboration

Integrated fax and conferencing capabilities enable your teams to instantly evolve their team conversations as needed, keeping projects moving forward in a productive way.

How it works

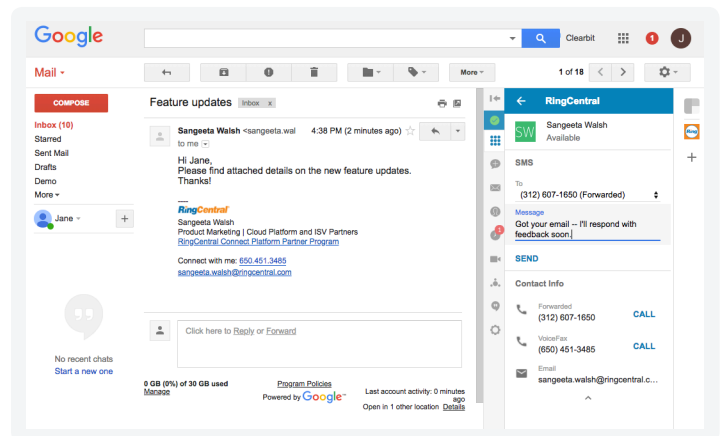

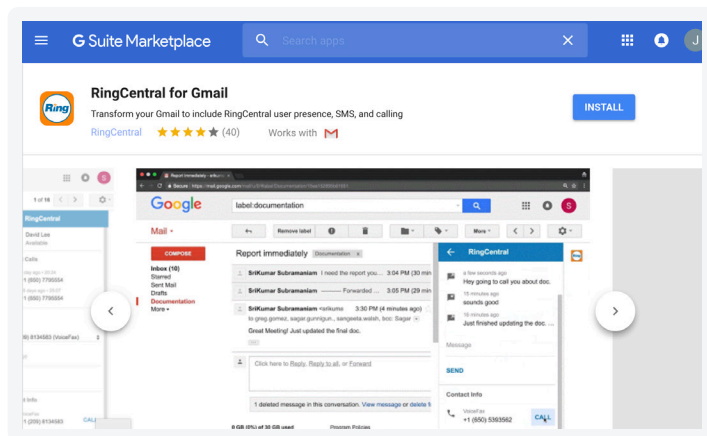

RingCentral Fax plug-in

After you download the RingCentral Fax plug-in from the Google Docs Add-ons menu, you can instantaneously fax important documents and even customize the cover page.

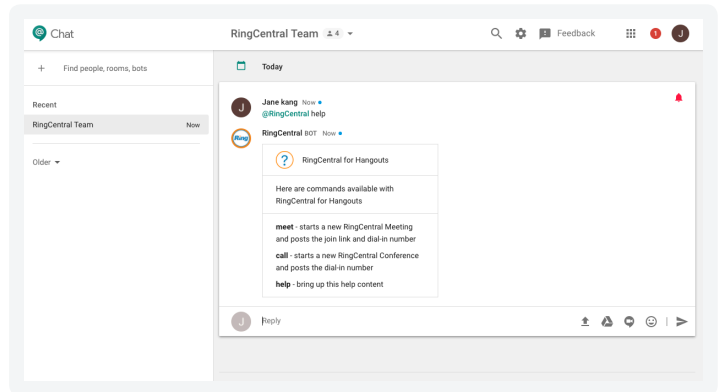

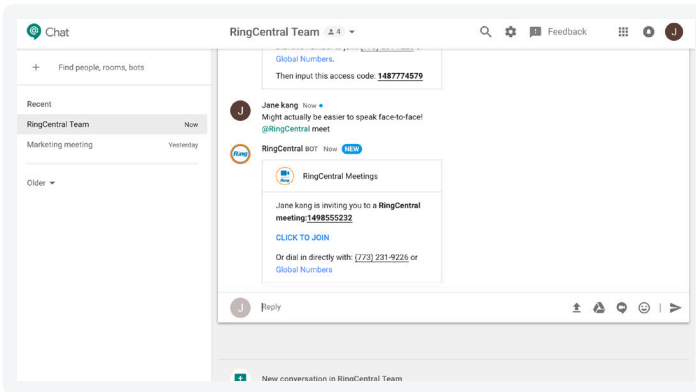

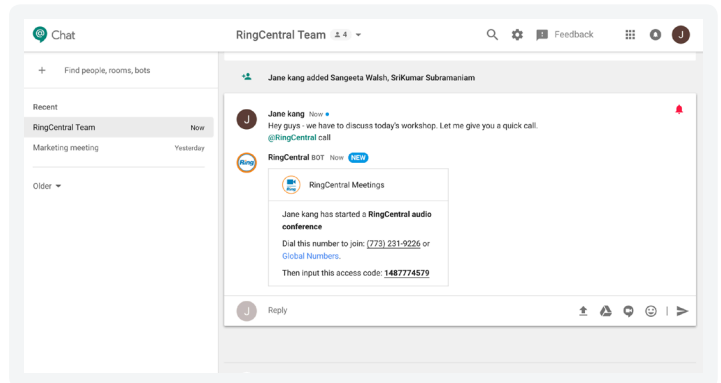

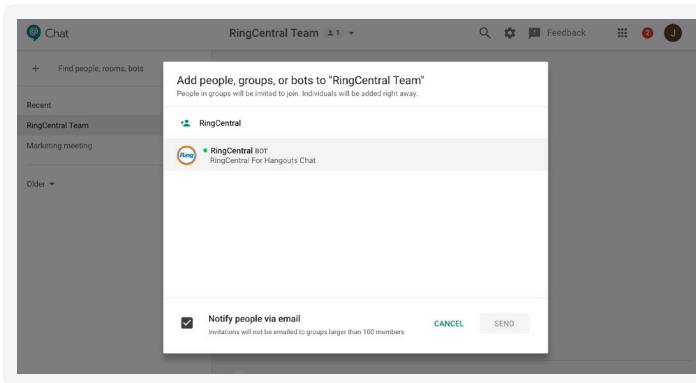

RingCentral for Gmail

After you download the RingCentral for Gmail application from Google G Suite Marketplace, you can view, call, and message contacts within an email conversation.

RingCentral for Hangouts Chat

When Google Hangouts Chat is enabled for your domain, you can add the RingCentral bot to any Hangouts room and use simple command prompts to initiate RingCentral video and audio conferences within your Hangouts Chat.

Requirements

- RingCentral for Google native integrations are available to all RingCentral Office® customers.
- You must have an active Google account.
- Windows® XP (or later) or Mac OS® X 10.8 Mountain Lion (or later) operating systems are required.
- Chrome™ 30 (or later).
